Professional experience

2026 **Qualification**, Sections 25, 26 (French Conseil National des Universités)

2025–present **Postdoctoral researcher (Projektassistent)**, TU Wien, Austria
FWF project *Limits of random networks*.

Education

2020–2025 **Joint PhD**, Sorbonne Université and University of Lausanne, France / Switzerland
Applied Mathematics (SU) and Business Analytics (UNIL).

Fields: probability, statistics.

Supervisors: Valérie Chavez-Demoulin, Olivier Wintenberger.

Topic: *Poisson cluster point processes: asymptotic properties and applications*.

2018–2020 **MSc in Mathematics and Statistics**, McGill University, Canada

Fields: probability, statistics.

Supervisor: Johanna Nešlehová.

Topic: *Modelling of heatwaves and dependence assessment*.

2013–2016 **BSc in Political Economy**, University of Lausanne, Switzerland

Fields: economics, econometrics.

Publications and projects

2025 **Tail asymptotics and precise large deviations for some Poisson cluster processes**, with Valérie Chavez-Demoulin and Olivier Wintenberger

First submission in April 2025, revision and resubmission in March 2026.

Advances in Applied Probability 57(1), 204–240, 2025.

2026+ **Sample-path large deviations for functionals of Poisson cluster processes**, with Olivier Wintenberger

First submission in April 2025, revision and resubmission planned for April 2026 to SPA.

2026+ **Palm versions and tail configuration of marked Hawkes processes**, with Hrvoje Planinić

In preparation, submission expected in spring 2026.

2026+ **Local convergence of permutations**, with Philipp Beltran and Benedikt Stufler

In preparation, submission expected in April 2026.

2026+ **Local large deviations of multi-type branching processes**, with Benedikt Stufler

In preparation, submission expected in spring 2026.

Teaching

2026 **Instructor**, Analysis 2 für Informatik, TU Wien, Austria

2023–2025 **Senior teaching assistant**, Statistics, University of Lausanne, Switzerland

2022–2024 **Senior teaching assistant**, Risk Analytics, University of Lausanne, Switzerland

2020–2022 **Senior teaching assistant**, Quantitative Methods for Management, University of Lausanne, Switzerland

- 2020–2021 **Senior teaching assistant, Programming Tools for Data Science, *University of Lausanne, Switzerland***
- 2020 **Teaching assistant, MATH447: Introduction to Stochastic Processes, *McGill University, Canada***
- 2019–2020 **Teaching assistant, MATH323: Probability, *McGill University, Canada***
- 2018–2019 **Teaching assistant, MATH222: Calculus 3, *McGill University, Canada***
- 2018 **Teaching assistant, Data Science in Business Analytics, *University of Lausanne, Switzerland***
- 2018 **Teaching assistant, Forecasting, *University of Lausanne, Switzerland***
- 2017–2018 **Teaching assistant, Machine Learning in Business Analytics, *University of Lausanne, Switzerland***

--- Awards, grants and fellowships

- 2025 **Prix de Solidarité Confédérale, *Faculty of Business and Economics, University of Lausanne***
Award (CHF 2500) for excellence in doctoral research.
- 2020–2025 **Cotutelle grant, *Swissuniversities, State Secretariat for Education, Research and Innovation***
Financial support (CHF 4000) intended to facilitate international collaboration (travel and miscellaneous expenses).
- 2018–2020 **Mathematics and Statistics Graduate Excellence Award, *McGill University***
Fully funded graduate student at McGill University (CAD 9800 per academic semester, CAD 39200 in total).
- 2016 **Faculty Prize, BSc Economics, *Faculty of Business and Economics, University of Lausanne***
Faculty prize (CHF 1000) for the highest average grade in the 3rd year (joint first place) in economics.

--- Selected talks

- Jul 2026 **Probability Summer School 2026, Saint-Flour.**
- Jan 2026 **Applied Mathematics Seminar, Laboratoire de Mathématiques Jean Leray.**
- Jan 2026 **MathNet Seminar, Inria Paris.**
- Oct 2025 **Random Geometry, Graphs and Extremes, IUC Dubrovnik.**
- May 2025 **Probability and Statistics Seminar, Laboratoire de mathématiques de Besançon.**
- Jan 2025 **(Not So) Informal Probability Seminar, University of Vienna.**
- Jan 2025 **Probability Seminar, PMF, University of Zagreb.**
- Dec 2024 **Validation of Predictions (VALPRED) 5, CNRS Centre, Aussois.**
- Oct 2024 **Congress of Young Researchers in Applied Mathematics, ENS Lyon.**
- Aug 2024 **Mathematics, Statistics, and Geometry of Extreme Events in High Dimensions, MFO Oberwolfach.**
- Jun 2024 **Probability Days 2024, Institute of Mathematics of Bordeaux.**
- Apr 2024 **Meeting of Young Statisticians 2024, Porquerolles.**
- Oct 2023 **New Perspectives in the Theory of Extreme Values, IUC Dubrovnik.**
- Jun 2023 **Extreme Value Analysis (EVA) 2023, Bocconi University, Milan.**
- Apr 2023 **Validation of Predictions (VALPRED) 4, CNRS Centre, Aussois.**
- Jul 2023 **Heavy Tails, Long-Range Dependence, and Beyond, CIRM, Marseille.**
- Oct 2021 **Validation of Predictions (VALPRED) 3, CNRS Centre, Aussois.**
- Jun 2021 **Extreme Value Analysis (EVA) 2021, University of Edinburgh.**

Academic service

- Reviewing *Journal of Mathematical Analysis and Applications* (1x), *Memoirs of the AMS* (1x), *Applied Probability Trust* (3x), *Annals of Applied Statistics* (1x).
- 2021–2025 Department Seminar in Operations (HEC, University of Lausanne), co-organiser of the seminar with Valérie Chavez-Demoulin.
- 2023–2025 Faculty Council (HEC, University of Lausanne), representative of the mid-level academic staff.
- 2021–2025 Western Switzerland University Conference, Applied Statistics and Probability section, representative of PhD students.

Languages and skills

- Languages French (native), English (C2), German (B1).
- Skills MATLAB, $\LaTeX$, R, Python.
